(678) 521-3406 | [brennandavenport3@gmail.com](mailto:brennandavenport3@gmail.com) | [github.com/brennandavenport](https://github.com/brennandavenport) | [linkedin.com/in/brennan-davenport](https://linkedin.com/in/brennan-davenport)

## EDUCATION

### University of Georgia

*B.S. in Computer Science & B.S. in Mathematics, GPA 3.7/4.0*

Athens, GA

*Expected Graduation: May 2027*

## TECHNICAL SKILLS

**Coursework:** Algorithms, Data Structures, Systems Programming, Discrete Math, Database Management

**Languages/Frameworks:** Python, C++, Java, JavaScript, React, Pandas, PyTorch, Django, Spring Boot, .NET

**Developer Tools:** Git, Github Actions (CI/CD), Linux, CMake, Docker, Postman, Azure, Google Cloud Platform

## EXPERIENCE

### Software Engineer Intern

*Western Alliance Bank*

May 2025 – August 2025

*Dallas, TX*

- Migrated FOREX trading services from Finzly to ION, achieving sub-100ms latency, 99.9% availability, and full regulatory compliance to support high-volume financial transactions and real-time data
- Identified bottlenecks in reading JSON files in Azure and built a scalable SQL Server database with a C# API pipeline processing 10,000+ records/month, eliminating delays and accelerating team throughput
- Standardized backend development by designing a CLEAN-architecture server template, adopted as the microservice framework for 14+ new internal banking services

### Software Engineer Intern

*Category Creations*

June 2024 – September 2024

*Athens, GA*

- Developed a scalable routing solution using Google Cloud Platform to optimize routes for over 300 stores
- Increased routing accuracy by 20% through integration of K-nearest neighbor, two-opt, and three-opt algorithms
- Created a fully automated system that routes new store addresses instantly, handling all geocoding, distance math, and optimization; eliminating manual input and saving 50+ hours per month

## PROJECTS

### Market Exchange [ [Github](#) ] | *C++, CMake, Ninja, Concurrency*

December 2025

- Engineered a distributed market exchange backend in C++20 using TCP sockets for inbound order flow and UDP with TCP retransmission for outbound confirmations, containerized with Docker and orchestrated via CMake.
- Achieved 5 million orders/sec throughput via lock-free concurrent queues, per-symbol ring-buffer pipelines, and multi-threaded matching engines optimized for low-latency order matching and trade reporting

### ML Bermuda Pricer [ [Github](#) ] | *Python, PyTorch, Streamlit*

March 2025

- Developed DeepBermuda, a neural network-augmented Longstaff-Schwartz Monte Carlo (LSM) algorithm for pricing Bermudan, American, and European options, targeting complex multi-asset OTC derivatives
- Replaced traditional poly regression with a FNN to better approximate continuation values in high-dim options
- Benchmarked pricing accuracy against standard LSM using mean squared error and performance across varying volatility, moneyness, and dimensions (1D-10D)

### CalTrack | *React-Native, JavaScript, Django, Python, PyTorch, PostgreSQL*

March 2024

- Led a team of students in developing a mobile app that utilizes AI powered image detection to identify food items
- Used PyTorch to build and train a ML model with a dataset from Hugging Face, featuring 100k+ food images
- Created a RESTful backend with Django and PostgreSQL to manage user auth, predictions, and food tracking data

## LEADERSHIP & ORGANIZATIONS

### Traders@UGA [ [Link](#) ] | *Founder & President*

December 2024 – Present

- Founded and led a quantitative trading club, managing 250+ applicants with a selective 5% acceptance rate, and guided members to placements at Jane Street, Two Sigma, Barclays, Amazon, Mathworks, and BlackRock.
- Led weekly meetings, hosting information sessions, trading games, technical projects, and mock interviews

### ICPC@UGA | *Member*

August 2024 – Present

- Placed 4th in ICPC North American Southeast Division 2025 - Division 1
- Placed 10th in ICPC North American Regional Qualifier 2025 - Division 1

**Honors & Activities** | Corsair Society, Eagle Scout, Resident Assistant, Dean's/President's List (4x), ChessDawgs

**Trading Competitions** | Georgia Tech, UMich (5th Jane Street, 5th Citadel, 9th Optiver), MathDash (Finalist)
